STATUS OF PERMIT:

Active; Permit to Operate issued 5 April 2011 expires 8 May 2016. A complete permit review request for the next five-year phase of construction and/or operations is due on or before 8 February 2016. This application must comply with the rules and regulations in effect at the time of the application.

PURPOSE OF SITE INSPECTION:

Comprehensive Facility Inspection

STATUS OF PAST NOTED VIOLATIONS:

None applicable

OBSERVED VIOLATIONS:

None

ADDITIONAL COMMENTS:

- 1) This facility is a Land Clearing and Inert Debris (LCID) Landfill and is permitted to receive land clearing waste, yard trash, untreated and unpainted wood, uncontaminated soil, and inert debris such as unpainted rock, brick, concrete, and concrete block.
- 2) Proper signage has been posted and is being maintained at the entrance to the landfill indicating the permit number, list of permitted and non-permitted wastes, and the facility emergency contact number.
- 3) The site is secured with two locked gates. One located at the property entrance and another at the facility entrance and has controlled access for safety.
- 4) The access road to the facility is of all weather construction and is being managed properly at this time.
- 5) The sideslopes have a well-established cover crop of native warm season grasses and are being maintained at a slope not greater than 3:1. No areas of erosion were noted during this Facility Compliance Inspection.
- 6) This facility has highly visible, permanent, edge-of-waste markers in place delineating the landfill waste disposal footprint.

- 7) The soil sedimentation and erosion control measures were reviewed and no off-site erosion was noted during this Facility Compliance Inspection.
- 8) The waste type being disposed is LCID waste only. There were no unacceptable waste streams noted during this Facility Compliance Inspection.
- 9) The active working area is compact and well managed.
- 10) Soil is stockpiled adjacent to the landfill and the active working face for use as cover.
- 11) The active working area is being covered monthly or when it reaches one acre in size, whichever occurs first.
- 12) The Facility attendant was working on compacting and re-sloping the eastern sideslope during this Facility Compliance Inspection.
- 13) Digital photographs were taken during this Facility Compliance Inspection.
